

1. Into a table

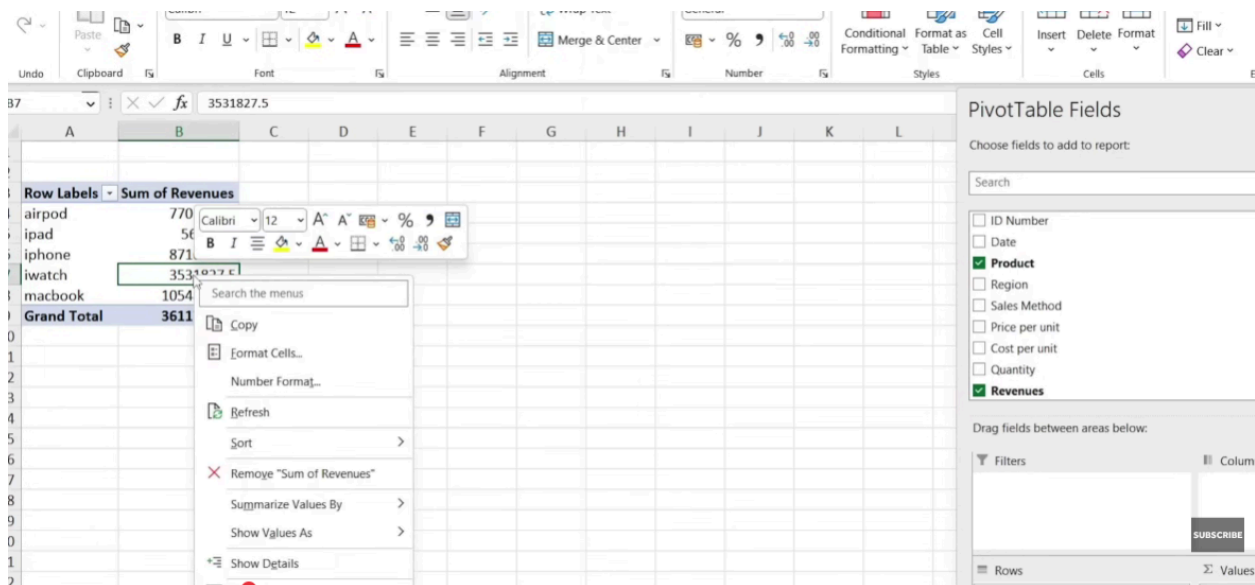

The screenshot shows the Microsoft Excel interface with the 'Insert' tab selected. The 'PivotTable' button in the 'Tables' group is highlighted with a red arrow. Another red arrow points to the 'Table' button in the 'Tables' group. The 'PivotTable from table or range' dialog box is open, showing the 'Table/Range' field set to 'Table2'. The 'Choose where you want the PivotTable to be placed' section has 'New Worksheet' selected. The 'Choose whether you want to analyze multiple tables' section has 'Add this data to the Data Model' unchecked.

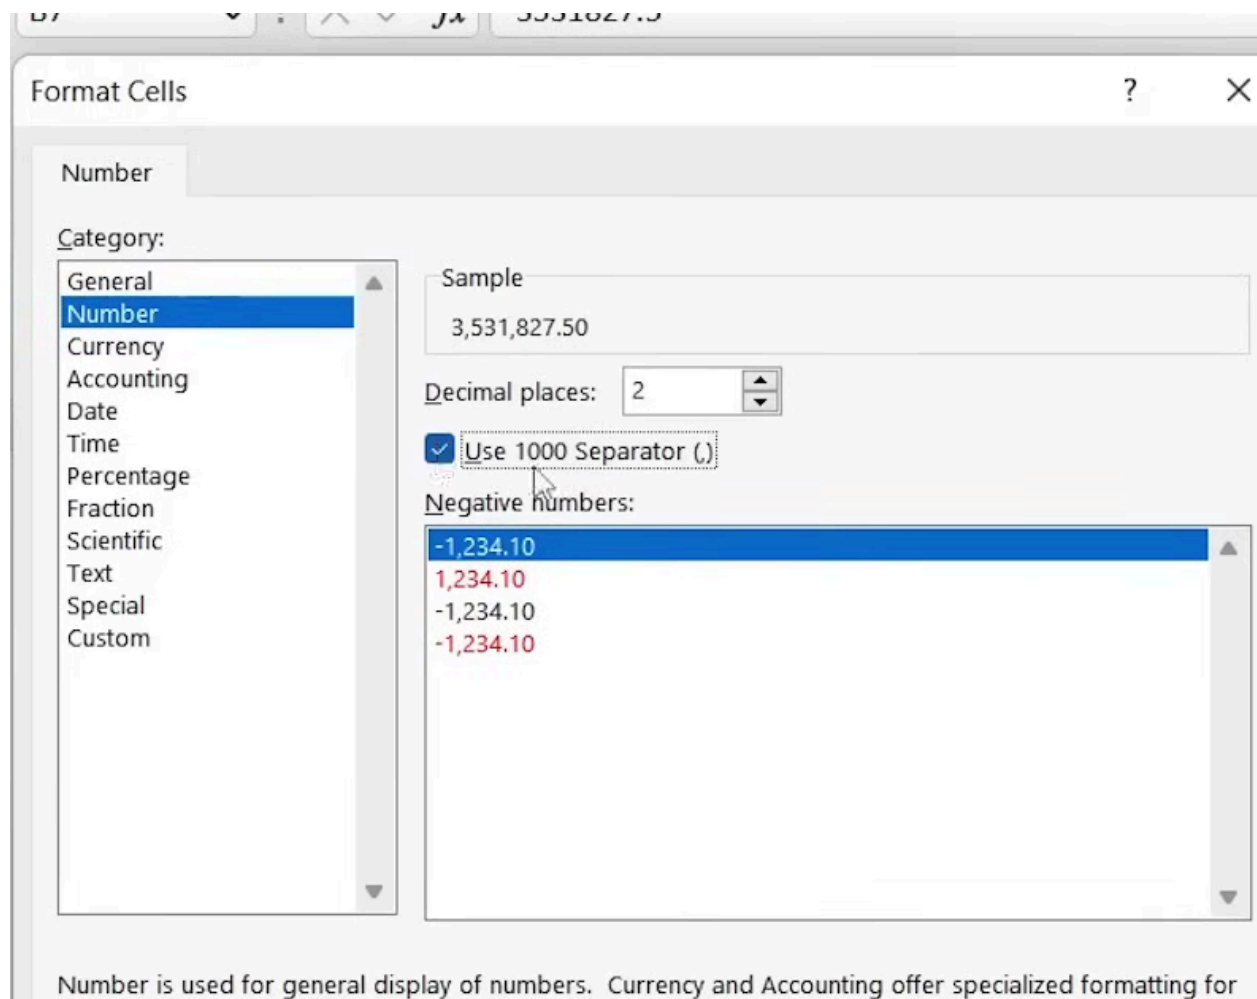

ID Number	Date	Product	Region	Sales Method	Price per unit	Cost per unit	Quantity

2. You can look at different viewpoints.

3 . Product by Revenue

We can also add the region.

Choose fields to add to report: 

Search 

- ☐ Date
- ☒ **Product**
- ☒ **Region**
- ☐ Sales Method
- ☐ Price per unit
- ☐ Cost per unit
- ☐ Quantity
- ☒ **Revenues**
- ☐ Expenses

Drag fields between areas below:

Filters	Columns
	Region

Rows	Values
Product	Sum of Revenues

Later remove the region.

Sorting from largest to smallest

- Show Values As >
- Show Details

Can we see the proportions?

Now can we find the average sales price?

Choose fields to add to report: 

Search 

- ☐ Date
- ☒ **Product**
- ☐ Region
- ☐ Sales Method
- ☒ **Price per unit**
- ☐ Cost per unit
- ☐ Quantity
- ☐ Revenues
- ☐ Expenses

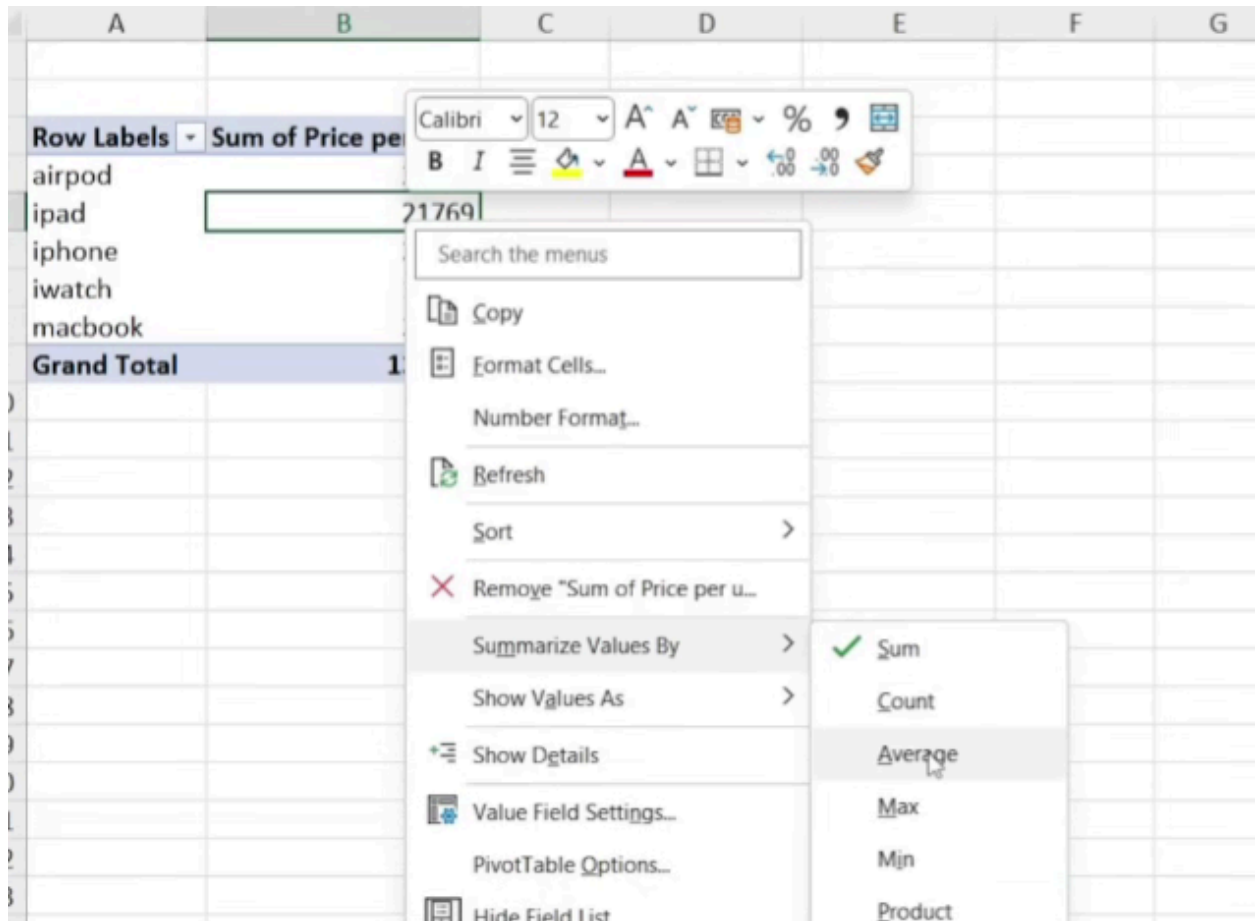

Drag fields between areas below:

 Filters	 Columns

 Rows	 Values
Product 	Sum of Price per unit 

We don't want the sum, we want the average.

We want to see the product sales by date.

PivotTable Fields

Choose fields to add to report:

Search

- ☐ ID Number
- ☒ **Date**
- ☒ **Product**
- ☐ Region
- ☐ Sales Method
- ☐ Price per unit
- ☐ Cost per unit
- ☐ Quantity
- ☒ **Revenues**

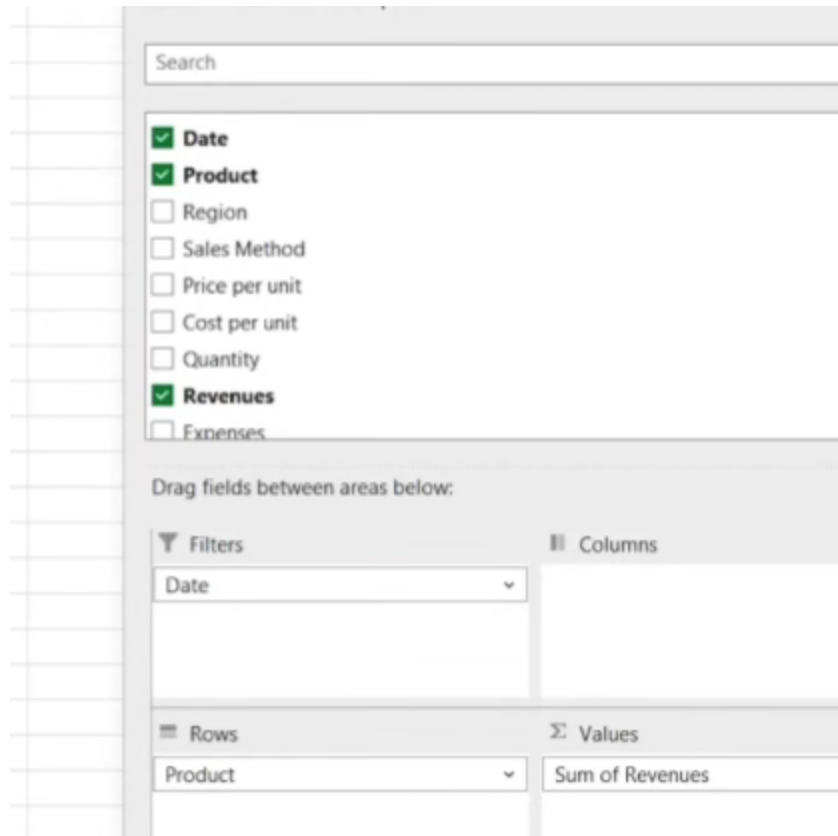

Drag fields between areas below:

Filters	Columns
	Months
	Date

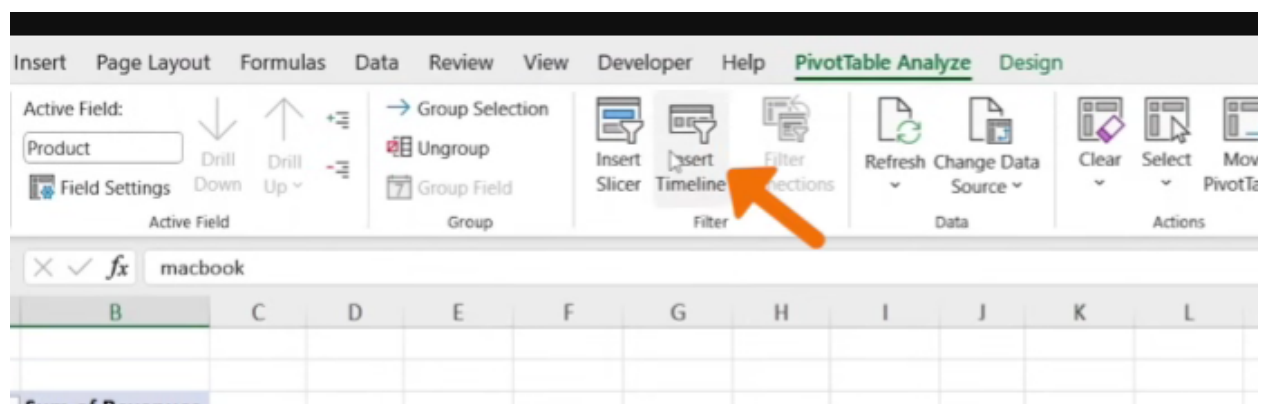

Rows	Values
Product	Sum of Revenues

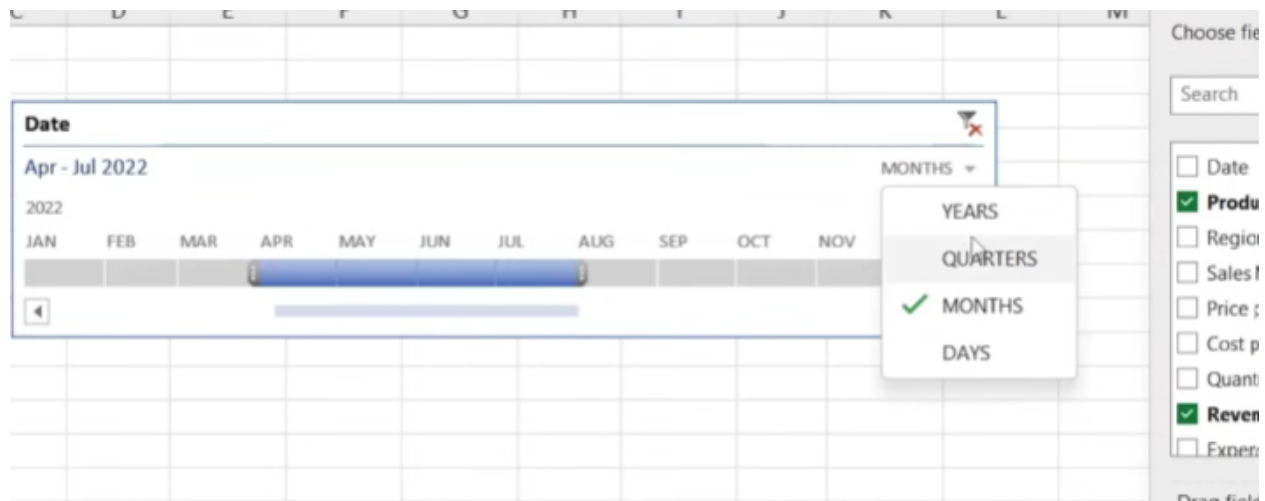

We can see that it is not very easy to interpret.

Rather we try to put the date in the filter.

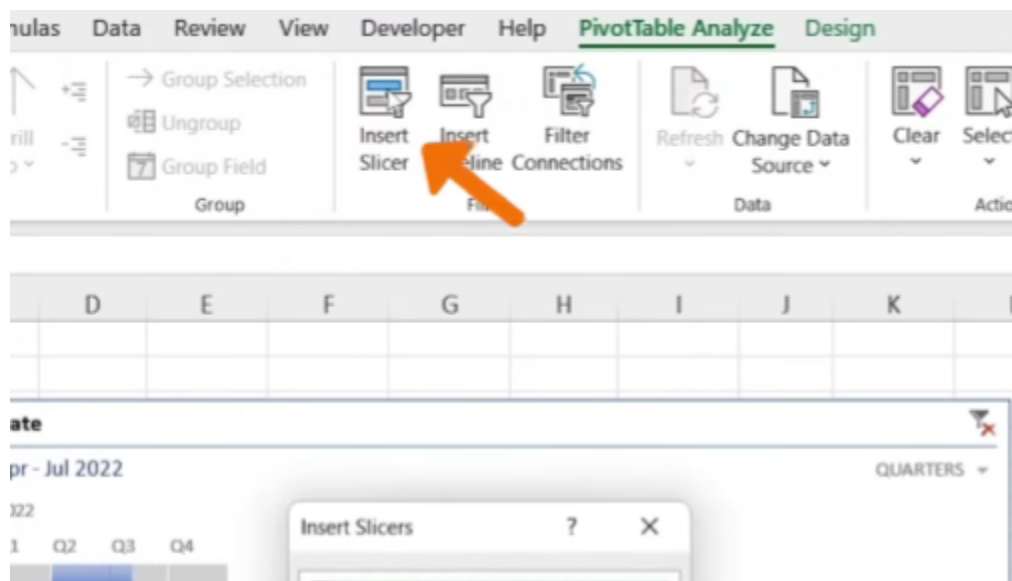

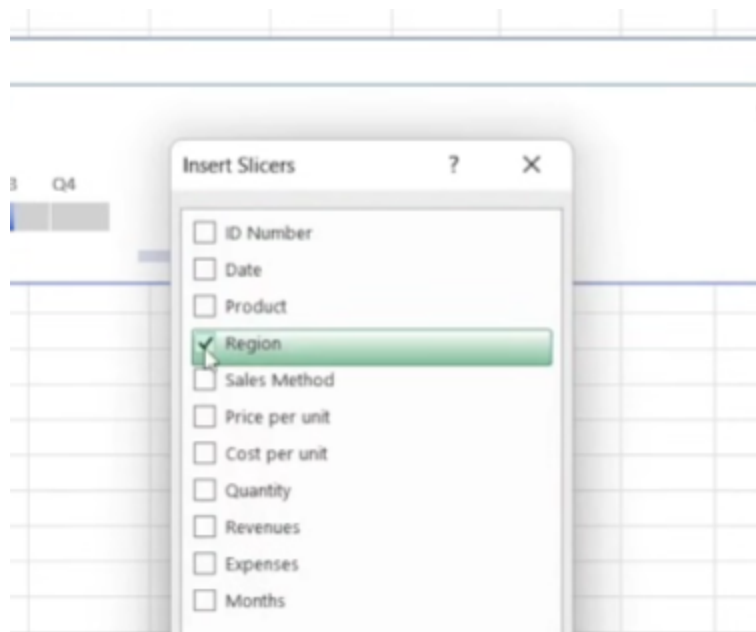

Pivot Table Analyze

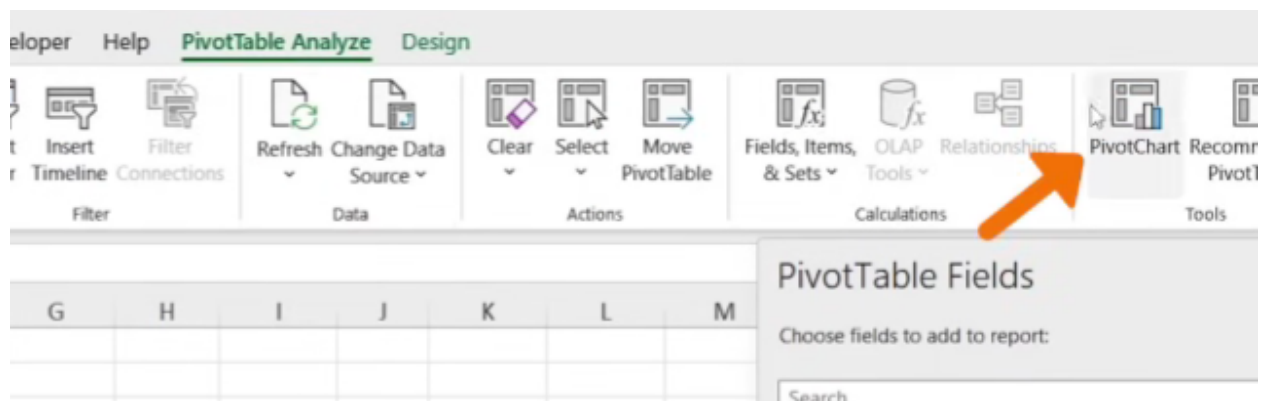

We can also add a slicer.

Let's now try creating charts.

Choose fields to add to report:

Search

☐ Date

☒ **Product**

☒ **Region**

☐ Sales Method

☐ Price per unit

☐ Cost per unit

☐ Quantity

☒ **Revenues**

☐ Expenses

Drag fields between areas below:

Filters
